Matt

At this point I don't plan to be there. I was going to check with Lam's schedule once we know the timeframe of sampling. Will touch base with you once I hear from EA Engineering. Thanks.

Raji – I forgot to ask you a question when we spoke a moment ago. Are you or Lam going to attend the background soil sampling event? Just curious. I'm going to try to attend pending the development of the schedule.

Thanks

Matt

Subject: Field Work Notification

Raji – per our discussion yesterday, and per AOC Section XI.55.b, please accept this notice that we intend to start the field work associated with the background sampling on or before the 26th of October, 2016. Also as discussed, if all parties (including your oversight contractor) can coordinate a schedule, we may conduct the sampling sooner than the 26th. We have provided April Ballweg with EA the information she requested regarding the laboratory reporting limits.

I'm sure we will talk soon about the schedule.

Please contact me with any questions.

Regards,

Matt
